

JOSEF ALANREY F. SORIENTE

Pandi, Bulacan • josefalanrey@gmail.com • 0928 453 9361 • <https://github.com/neozeeph> • <https://jafs-dev.vercel.app>

PROFESSIONAL SUMMARY

Detail-oriented Computer Engineer with hands-on experience developing web and software solutions using React, Python, Flutter, and modern development tools. Aspiring Software Developer who is passionate about building user-centered applications while expanding expertise in software engineering, DevOps, and cloud technologies.

WORK EXPERIENCE

PRIME Philippines

June 2025 – July 2025

Information Technology Intern

Quezon City, NCR

- Built reusable React.js components and responsive Tailwind CSS layouts across 5+ pages, cutting redundant frontend code and standardizing UI patterns for the team.
- Implemented responsive interfaces from Figma designs in collaboration with the UI/UX team, aligning implementation with usability requirements.
- Diagnosed and resolved frontend bugs, improving page responsiveness and user experience across desktop and mobile.

PROJECTS

FABCUT: Automated Fabric Cutting Machine | *Python*

- Developed a Python-based automated fabric cutting system integrating embedded control technologies and mechanical automation. Conducted system testing and statistical analysis, and presented technical findings during project evaluations and thesis defense.

BulSU COE Alumni Tracker Website | *React.js, Tailwind CSS, & Vercel*

- Developed and deployed a responsive alumni web application, providing graduates with centralized access to registration forms, announcements, and alumni resources through an intuitive user interface.

DevOps CSV Automation | *Python & GitHub Actions*

- Led DevOps efforts designing CI/CD pipelines with GitHub Actions to automate testing, linting, security scanning, and deployment.
- Built an automated CSV processing pipeline with data visualization, reducing manual data-handling effort.

LEADERSHIP

Institute of Computer Engineers of the Philippines Student Edition BulSU Main Campus

April 2025 – April 2026

President

Malolos, Bulacan

- Spearheaded organizational operations and facilitated major events supporting 400+ Computer Engineering students.
- Managed committees and internal communications, driving academic and technical programming for the organization.

EDUCATION

Bulacan State University Main Campus

June 2026

Bachelor of Science in Computer Engineering

Malolos, Bulacan

- Summa Cum Laude**, GPA: 1.13 (President's Lister, 2023-2026)
- Relevant Courses:** Object-Oriented Programming, Data Structures and Algorithms, Cloud Computing, Operating Systems

SKILLS AND INTERESTS

Languages: C, C++, Python, Java, Dart, HTML, Javascript

Frameworks & Libraries: React.js, Tailwind CSS, Flutter

Databases: PostgreSQL, MySQL, Firebase, SQLite

Tools & Platforms: Figma, Adobe Illustrator, Canva, Visual Studio Code, GitHub, Vercel, Shell

CERTIFICATIONS

DataCamp: SQL Associate, Python Programming Fundamentals, GitHub Foundations, Data Analyst Associate

Cisco Networking Academy: Introduction to Cybersecurity, Networking Basics

Huawei: Development and Basic Concepts of Cloud Computing, Overview of AI

AWARDS

Merit Undergraduate Scholar | *Department of Science and Technology* | 2022 – 2026

Champion | *ICPEP.SE R3 7th CPE Challenge Quiz Bowl Competition* | January 2024

1st Runner-Up | *ICPEP.SE R3 8th CPE Challenge Quiz Bowl Competition* | March 2025

2nd Runner-Up | *SquEEEze Inter-Collegiate Quiz Show* | March 2026

2nd Runner-Up | *ICPEP.SE R3 9th CPE Challenge Quiz Bowl Competition* | March 2026
